

# Our **NEW** Covid Guidelines

## for In-person Worship

- **Masks are optional for fully vaccinated individuals.**

We still strongly encourage wearing a mask when children, or other unvaccinated people, or people whose status is unknown, are in attendance.

Additionally, when such individuals are in attendance, they (or their parents) will be informed that masking is recommended for them, since masks are optional for fully vaccinated persons.

- **Congregational singing optional for fully vaccinated individuals.**

- **Coffee / Fellowship Hour following worship in the Parish Hall.**

Drinks will be served by 1-2 individuals. Food must be wrapped / prepackaged only.

We encourage everyone to stay healthy by following safe and practical procedures including wearing a mask when children or other unvaccinated are present, social distance of at least 6 feet, and 20 second hand washing and/or use of hand sanitizers. Children and other unvaccinated persons should wear a mask. Let us all pray for those who have passed, those who are suffering from this illness and those that are taking care of them, as well as those who are working diligently to protect us.
